GENERAL INFORMATION

HISTORY OF THE COLLEGE

Towson State College, the oldest and largest of Maryland's public colleges, traces its history back to 1865 when the General Assembly of Maryland established a state-wide public school system. The first state teacher training institution was the Maryland State Normal School which in 1935 became the State Teachers College at Towson. In 1963 the name Towson State College was adopted.

Formally opened in Baltimore on January 15, 1866, the Normal School was, for many years, the only institution devoted exclusively to the preparation of teachers for the public schools of Maryland.

The School occupied three different locations in the City of Baltimore before moving to its present suburban location in 1915.

In 1946 the arts and sciences program was introduced at Towson. Beginning as a two-year transfer program, it was extended to a four-year, degree-granting program in 1960.

In 1963 the College was authorized, by action of the Legislature, to expand its offerings in the arts and sciences while maintaining a strong program in teacher education and to change its name from State Teachers College at Towson to Towson State College.

In 1966 the College completed 100 years of service to the State, having graduated more than 12,000 students during its first century.

DEVELOPMENT OF GRADUATE STUDIES

Graduate Studies at Towson State College began in June 1958 with the establishment of a Master of Education degree program in Elementary Education. This was initiated after two years of preliminary study and recommendations from teachers and school administrators.

Sixty-seven students were admitted to the degree program in the first session of 1958, and the number of students has increased in a single decade to the more than 2500 enrolled in November 1968. Since 1958, six additional programs leading to the Master of Education degree have been developed and approved and a number of other programs are in various stages of planning and approval. The programs presently offered leading to the Master of Edu-

cation degree and the dates of approval by the Board of Trustees are as follows:

Art Education	1965
Early Childhood Education	1968
Elementary Education	1958
Guidance and Counseling	1965
School Psychology	1967
Secondary Education	1965
Urban Teaching	1966

THE CAMPUS

The College is situated on a campus of nearly 300 acres located a mile and one-half beyond the northern border of the city of Baltimore.

Within an eight-mile radius of the campus are all the cultural advantages of the city of Baltimore — the Peabody Conservatory of Music and Library, the Enoch Pratt Free Library, the Walters Art Gallery, the Baltimore Museum of Art, and the many theaters and other cultural centers necessary for a well-rounded college experience.

Campus buildings and facilities give excellent support to the various College programs. The following are of particular interest to graduate students:

- 1. Stephens Hall, one of the original campus buildings, houses most of the administrative offices as well as some classrooms. This building with its clock tower has become a landmark in the Baltimore area. Offices of the Graduate Division are located in the south wing of Stephens Hall.
- 2. The Albert S. Cook Library has well-developed holdings in the arts and sciences and teacher education. Towson's long history of teacher education is reflected in the extensive collections of bound volumes, reference works and periodicals in this field as well as substantial holdings in microfilm and microcard. The collections of curriculum materials, textbooks, trade books and audio-visual aids are particularly noteworthy. A large addition to the Library is under construction.
- 3. Van Bokkelen Hall is a classroom building for the departments of art and mathematics. In addition, it contains recording and listening rooms for the Speech and Drama Department, piano practice rooms for the Music Department and display areas for the Art Department.
- 4. Linthicum Hall, completed in 1967, is the largest classroom building on campus. Many faculty offices are also located here. The ground floor houses the College Book Store.
- 5. Smith Science Hall was first occupied in the fall of 1965. Included in

the building are biology, chemistry, physics and science education offices, classrooms, laboratories and special function rooms such as student and faculty work and preparation areas. The Watson-King Planetarium is on the top floor.

- 6. Lida Lee Tall School, a laboratory school of grades K-6, greatly facilitates field studies of schools and children.
- 7. Burdick Hall, the new gymnasium, and additional athletic fields were completed in the 1967-1968 college year.

A new Fine Arts Building and a new Student Union are scheduled for early construction.

ACCREDITATION

Towson State College is accredited by the Middle States Association of Colleges and Secondary Schools, the Maryland State Board of Education and the National Council for the Accreditation of Teacher Education. The College is a member of the American Council on Education and is approved by the American Association of University Women.

BOARD OF TRUSTEES

The College is governed by a nine-member Board of Trustees - eight members appointed by the Governor for nine-year terms — and the state superintendent of schools, a permanent member, ex officio. This same board also controls the five other state colleges.

Created by the General Assembly of 1963, the Board was a recommendation of the Commission for the Expansion of Public Higher Education in Maryland and replaced the State Board of Education as the College's controlling agency.

Students registering for the first time in graduate-level courses cannot complete registration by using the mail registration option. They must complete the form "Application for Admission as Graduate Student" and by appearing on the appropriate registration date may register for 400-level courses. Registration for 500-level courses is contingent upon the granting of Graduate Student standing.

Any post-baccalaureate student enrolled in 400 or 500-level courses is considered to be taking graduate-level work. The semester hour fee, therefore, will be assessed at the graduate rate. Courses below 400-level taken by the post-baccalaureate student will be assessed at the undergraduate rate for each semester hour.

To receive an assistantship or fellowship, a student must be recommended by the appropriate department. Detailed information concerning the assistantships and fellowships may be obtained by writing to the Director of Graduate Studies.

ACADEMIC REGULATIONS GOVERNING GRADUATE AND POST-BACCALAUREATE STUDY

ADMISSION TO COURSES FOR GRADUATE CREDIT*

An applicant for admission to courses for graduate credit (classification: Graduate Student) must meet admission requirements in one of two ways: 1) By holding a Master's or Doctor's degree from a regionally accredited college or university, 2) By holding a Bachelor's degree from a regionally accredited college or university and a grade average of 3.00 ("B"). Several areas of the applicant's undergraduate academic record will be examined, and the grade requirement can be satisfied by a "B" average in at least one of them. They are as follows: a) The complete record of four years' work, b) The work of the junior and senior years only, c) The courses relevant to the graduate program he will undertake. These courses are ordinarily those making up the undergraduate major and minor if the student plans to continue his studies in these same fields. The quality of graduate work taken beyond the Bachelor's degree, either as post-baccalaureate (non-graduate credit) courses or graduate credit courses, will be evaluated as part of the undergraduate record. Recommendations from persons who can appraise the student's academic qualifications may be required.

An "Application for Admission as Graduate Student" must be filed in advance of the first enrollment at this college. The application and one copy of transcripts of all collegiate work must be filed with the Director of Graduate Studies no later than August 15 for the Fall Semester, January 1 for the Spring Semester, or May 15 for the Summer Session to be considered for admission. Those who are admitted as Graduate Students may register for courses numbered 100-599 but will receive graduate credit only in courses numbered 400-599 completed with grades of "C" or better. Service Courses and several 400-level undergraduate prerequisite courses are not given graduate credit. In order to maintain the classification of Graduate Student a good academic record must be achieved even if the student is not in a degree program.

^{*} The regulations contained in this Bulletin pertain only to those students who began their graduate studies after June 1, 1967.

ADVANCEMENT TO DEGREE CANDIDACY

Students admitted as Graduate Students are not candidates for a degree until all the requirements listed below under "Advancement to Candidacy for the Master's Degree" have been met. However, all those who intend to apply at the appropriate time for advancement to degree candidacy should file a Program of Study with the Director of Graduate Studies during their first term of work at this college. This Program, listing all courses to be taken to meet degree requirements, must be approved by a graduate adviser. It also includes any undergraduate requirements the student may not have met. Students should consult the Course Requirements of the program in which they are interested for undergraduate requirements of the major areas of graduate work (Education, Psychology or Art). However, all programs require or recommend that work be taken in departments outside one of these major areas. Since some departments may require a specific undergraduate background for graduate study in their areas (i.e., an undergraduate major or minor), students are urged to consult the Graduate Advisers of the appropriate departments for information about their policies. Such requirements are normally met by taking the necessary courses, but in special circumstances may be fulfilled by a reading program or by examination.

CANDIDATES FOR DEGREES AT OTHER INSTITUTIONS

A student who is a candidate for an advanced degree at another college or university may enroll as a Graduate Student at this college for occasional work. He must present, at least two weeks before registration, a letter from the Graduate Dean of his parent institution indicating that he is in good standing and that credit earned here is acceptable towards his degree.

ADMISSION TO COURSES FOR POST-BACCALAUREATE WORK (NON-DEGREE PROGRAMS)

Students who do not meet the standards required for classification as Graduate Student are permitted to register with the classification of Non-Graduate Student and pursue non-degree programs. Non-Graduate Students may take courses at the 400-level and earn graduate credit towards the Advanced Professional Certificate.

Non-Graduate Students pursuing non-degree programs at the post-baccalaureate level, however, are required to file an "Application for Admission as Graduate Student" and a copy of all transcripts of all collegiate work in advance with the Director of Graduate Studies.

Students who believe they can meet the admission requirements for Graduate Student status but who fail to file the required application in advance

must register as Non-Graduate for the term. However, they will be considered for admission to Graduate Student status if their application and transcripts are received by the college before the end of the first quarter of the term. If they are admitted to Graduate Student status they will then be permitted to receive graduate credit for satisfactory completion of any 400-level course (except Service Courses and several undergraduate prerequisite courses) in which they may be enrolled.

THE QUALIFYING PROGRAM

A Qualifying Program has been designed to test the readiness for graduate work of those students whose academic achievement falls short of the standards required for Graduate Student status but whose records show promise on several other grounds. Those who pass the Qualifying Program are admitted to the status of Graduate Student.

Two factors will be considered in determining whether an applicant should be admitted to the Qualifying Program: 1) His academic average in all collegiate work. It must be at least 2.30 in one or more of the areas of the student's record listed above in "ADMISSION TO COURSES FOR GRADUATE CREDIT", 2) The quantity and quality of teaching or counseling experience in the field in which he plans to major as a Graduate Student. In addition, recommendations from persons who can appraise the student's academic qualifications and professional experience may be required.

The Qualifying Program consists of 1) A minimum of six hours chosen from a list of approved 400-level courses. The courses must be completed with a 3.00 average. At least one course must be in Education and one outside Education. 2) The Graduate Record Examination. Acceptable scores on the Graduate Record Examination must be achieved in the Aptitude Test and in the appropriate Advanced Test if required by the particular degree program. An adviser will be assigned to the student to assist him and to help evaluate his work. Application for admission to this program is made to the Director of Graduate Studies.

Students in the Qualifying Program are enrolled as Non-Graduate Students. Their course work will not count towards any advanced degree but may be given graduate credit towards the Advanced Professional Certificate. During this period students may be asked to complete certain undergraduate requirements for the degree program in which they may be interested.

Non-Graduate Students must be enrolled in the Qualifying Program if they expect their work in 400-level courses and performance on the Graduate Record Examination to be considered for admission to Graduate Student status.

GRADUATE WORK BY SENIORS IN THIS COLLEGE

Seniors in their last semester of work at this college may take 400-level courses for graduate credit and 500-level courses if they meet the following requirements: 1) The graduate courses must be in excess of the 128 hours required for the Bachelor's degree, 2) An application to the Director of Graduate Studies for Graduate Student classification (which requires a 3.00 average). submitted in advance (by August 15 for the Fall Semester, January 1 for the Spring Semester, and May 15 for the Summer Session) must be approved.

REQUIREMENTS FOR THE DEGREE OF MASTER OF EDUCATION

1. Advancement to Candidacy for the Master's Degree An application for Advancement to Candidacy for the Master's degree may be made by Graduate Students when nine to fifteen hours of graduate courses have been completed at this college. Over half of this work must have been taken in 500-level courses. Application is made to the Director of Graduate Studies.

Evaluation of the application is based upon the completion of the following requirements:

- a) The filing of a Program of Study with the Director of Graduate Studies, if not done earlier. The Program, to be completed in consultation with an adviser, must be drawn up on forms provided by the appropriate graduate coordinator. It may be revised at any time with the adviser's approval.
- b) A 3.00 average in all graduate work at this college.
- c) Acceptable scores on the Graduate Record Examination. This need not be retaken by those who passed the Qualifying Program.

Advancement to Candidacy in no case assures the student of a degree, but merely signifies that he is considered by his instructors sufficiently prepared and able to pursue such graduate study and research as are demanded by the requirements of the degree sought. Recommendations from persons who can appraise the candidate's professional experience may be required.

- 2. All requirements, including the comprehensive examination, and the thesis if applicable, must be completed by August of the seventh year of graduate study. This period of study is assumed to begin at the time the student is admitted to Graduate Student status.
- 3. Eighteen or more of the total required course credits for any degree program must be earned in 500-level courses.
- 4. In order to remain in good standing, candidates for the Master of Education degree must maintain a 3.00 average after being advanced to degree candidacy. If the cumulative average falls below 3.00, the stu-

dent will be placed on probation. If after completing nine more hours of work his cumulative average remains below 3.00, he will be dropped from candidacy; otherwise he will be restored to good standing. A student on probation will not be permitted to take comprehensive examinations leading to any degree. Required courses in which the candidate earns a grade of "D" must be repeated, since the grade does not confer graduate credit. In accordance with college policies both grades for the course will be computed in the student's cumulative average.

- 5. The thesis and seminar requirements of the programs which demand them represent a major part of the student's advanced study. The thesis* must demonstrate the student's ability to do independent research and to write effectively as evaluated by a thesis committee appointed by the Director of Graduate Studies. The seminar paper is a more modest undertaking, but must exhibit similar qualities of research and writing as evaluated by the professor teaching the seminar.
- 6. Each candidate for the Master of Education degree must take a final comprehensive examination not earlier than the term during which he will complete his course work. This examination is given three times a year, in April, July, and November. The examination may be repeated only once. It is the responsibility of the student to inform the Graduate Office at least one month prior to the examination of readiness to take the examination. Students presenting a thesis in partial fulfillment of their degree requirements will be required to take an oral examination on the thesis

CREDIT TRANSFERRED FROM OTHER COLLEGES

A maximum of six hours of graduate credit may be transferred from other regionally accredited colleges or universities and counted towards the Master of Education degree. A request for transfer credit for courses taken before enrollment as a Graduate Student at this college should be submitted at the time the student files a Program of Study. If he wishes to take work elsewhere after filing this Program,

^{*} The student who has elected to write a thesis in partial fulfillment of the requirements for the M. Ed. degree (Plan A) must enroll in Educ 599 Master of Education Thesis (3 hrs.) at some time during the active preparation of the thesis. The grades to be granted in Educ 599 shall be "S" for Satisfactory and "U" for Unsatisfactory. "Incomplete" shall be given only in accordance with the Academic Regulations stated in the Towson State College Bulletin. If a student receives a "U", he may change to Plan B (Seminar).

he must apply in writing to the Director of Graduate Studies for permission. Normally, approval will be given only for courses which are not offered by this college during the period of the student's attendance. Only courses in which grades of "A" or "B" have been earned are transferable. The candidate is subject to final examination on all work offered for the degree.

All course work to be transferred, like credit earned at this college, must have been taken within the seven-year period of study in order to be counted towards the degree.

COURSE DESCRIPTIONS

Course descriptions for all 400 and 500-level courses offered by the College are listed in this section of the bulletin. These courses, with the exception of Service Courses and several undergraduate prerequisite courses, when taken by post-baccalaureate students earn graduate credit.

Courses offered in any session are selected from the courses listed. Students should consult the course schedules issued by the Registrar's Office and the Evening and Summer School Office to determine the courses offered in a particular session.

Each department of the College has one or more code numbers and abbreviations for each general subject area (e.g., French in the Modern Language Department). The code abbreviations are shown in parenthesis at the head of the course listings. The code numbers form a two digit Subject Classification Number, which precedes a three digit Course Classification Number, forming a five digit Course Number. Each course has a distinctive number.

Semesters of a year course whose numbers are separated by a hyphen are to be taken in sequence. When course numbers are separated by a comma, either semester may be taken independently of the other.
